

# Anti-Spam Whitelist/Blacklist aanpassen als gebruiker

Log in op het spamfilter via: <https://master.antispamcloud.com>

The image shows a login interface for the Anti-Spam Cloud service. It features a white login box centered on a blue background. The box contains two input fields: 'Username / domain / email:' and 'Password:'. Below these fields are two buttons: a blue 'Submit' button with a checkmark icon and a white 'Retrieve log-in link' button with a question mark icon. At the bottom of the interface, there is a dark footer bar containing the copyright notice '©2022 Spampanel' and a language selector showing 'English' with a dropdown arrow.

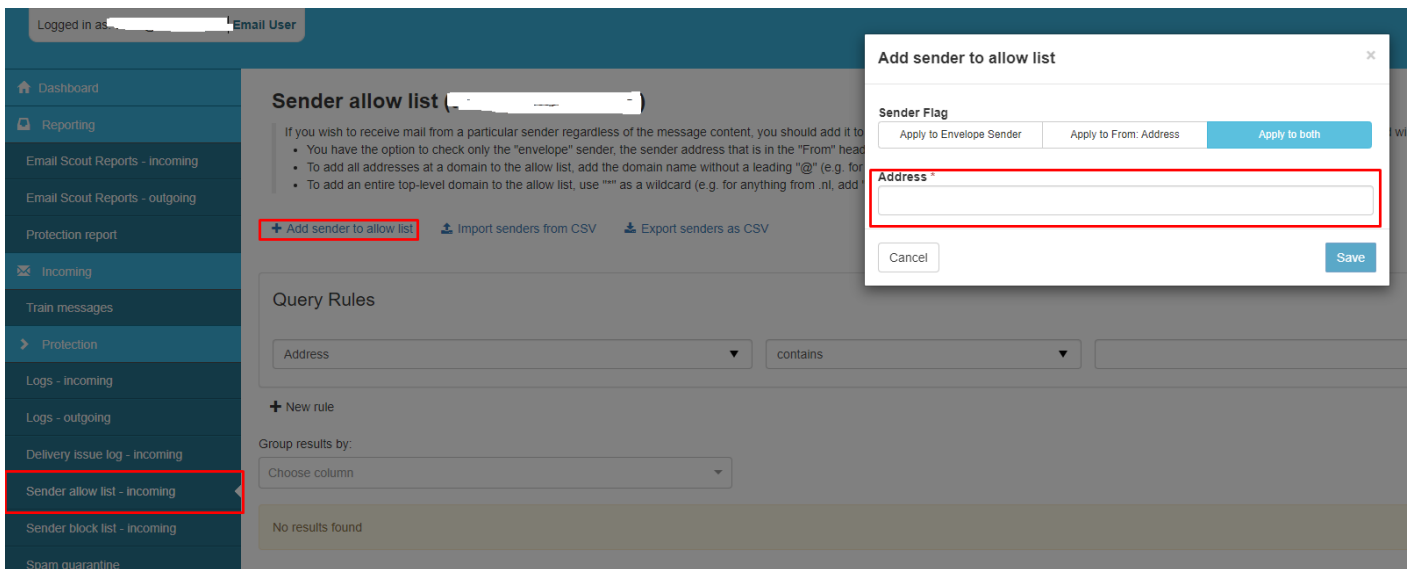

Username / domain / email:

Password:

©2022 Spampanel English ▾

Klik op de tab **Protection -> Sender allow list -incoming**.

U kunt nu hier uw persoonlijke **whitelist/blacklist** door op Add sender to allow list toevoegen en het gewenste adres in te voeren en op **save**

Dit zelfde geldt voor het blokkeren. Hier kunt u voor te recht bij Protection -> sender block list - incoming
